REFERENCES

Guntmar Eisen, EIT, a J&J company

"Thanks to the close collaboration of our engineers with the Baat team, we could execute our development strategy as planned. We couldn't have reached this level of success without them."

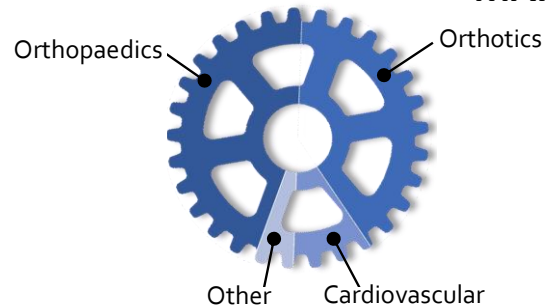

Dr. Hans-Joachim Fischer, Waldemar Link

"The engineering services of Baat really complements our own design process, while seamlessly integrating into our existing operations."

Oliver Hass, BSN Medical

"Thanks to everyone at Baat medical involved in this project. We are very satisfied with your service (including performance, communication, and flexibility) and are looking forward to possible new collaborations."
