

Job Opening

Application Manager

BAAT Medical Products BV
Hengelo, The Netherlands

Application Manager (0-5 years of work experience).

Job Description Application Manager

Application Manager ensures that our critical software and databases are kept updated and running. This software is part of our Quality system and critical to our business.

Typical Tasks:

- Control and update the systems (DMS, ERP, Planning Software)
- Identify risks related to software updates and changes.
- Periodically validate the software to be up to our standards.
- Perform database entries
- Support and train internal users in the use of this software
- Serve as a point of contact with our software suppliers, team and external parties.

Role profile:

- Bachelor or Master working level
- Good command of English, both spoken and written
- Affinity with database systems both local and cloud based
- Attention to detail, diligent
- Analytical
- Result driven
- Team player
- Pro-active/self starter
- Interested in learning.
-

BAAT will provide an intensive training to onboard the candidate into ISO13485, QMS and DMS, A personality test may be part of the recruitment process.
